From almost 20 years we working around trends and realise these new ideas immediately in our production partner facilities. Our designers and trend scouts on the international platform enable us to present our trendy and up to date assortment.

Trend items, which combine original style quality and reasonable price, are the tools to create extraordinary worlds of living. Furniture, building material, lighting, accessories and gifts create an extensive sales mix that leaves nothing to be desired.

All the items belong to different topics and styles and complement or contrast one another. No matter how different the items are – all of them are strictly following a customer requirements channel and making FLORAMA COLLECTION your successful partner in the national and international market.

All we need from you is the exact floor plan of the project, "key turn" for Hotel, Café shops, restaurant, villa, residences, apartment or simply your private future lifestyle design. And following your detailed information about walls, floor, lighting, technical plan design and target price we are able to support you on the projects.
